

## Personal Electronic Device LTU Guest connection instructions

Please use the LTU Guest network connection for phones, Android and Apple tablets, etc.

### Connecting an iPad, iPhone, iPod touch to LTU Guest

1. Tap **Settings > Wi-Fi**. Tap on *LTU Guest* to join it.
2. No password is required.
3. When connected to *LTU Guest*, the Wi-Fi icon  in the status bar displays connection strength. The more bars you see, the stronger the connection.
4. While connected to *LTU Guest* network you should be able to access email, the Internet and hotspot printers.

### Connecting an Android device to LTU Guest

1. Open up the settings on the device
2. Go to Wireless & Networks
3. If Wi-Fi is unchecked, tap the empty box.
4. After scanning is complete, click on *LTU Guest*
5. Click Connect. Your 3G(4G) indicator should change and become a wireless connection

### Connecting a Blackberry device to LTU Guest

1. On the home screen, select the connections area at the top of the screen, or select the Manage Connections icon (BlackBerry device software 5.0 or earlier)
2. Select Wi-Fi Network.
3. Select *LTU Guest*.

### Connecting a gaming console to LTU Guest

1. Please connect all gaming systems to the LTU Guest wireless connection.
2. No password is required.
3. No other steps are required.

If you cannot connect to the LTU Guest Network, please visit or contact the Help Desk at 248.204.2330 for assistance.
