

# BACHELOR OF SCIENCE IN INTERIOR DESIGN

## SUMMARY

The Bachelor of Science in Interior Design is an accredited, professional baccalaureate degree. This degree provides a studio-centered experience that encourages students to explore the field of interior design in a manner that is practically grounded, critically framed, and deeply invested in cultural relevancy and technological advancement. In this program, courses are designed to support each student's intellectual needs through a highly flexible interdisciplinary platform, diverse faculty expertise, and individualized instruction.

## CURRICULUM

The 121-credit-hour Bachelor of Science in Interior Design program consists of:

Interior Design Core	79
Humanities	21
Math and Science	15
Electives	6
Total	121

## ADMISSION

Admission into the Interior Design program follow the University's admission criteria. Portfolios are not required for admission.

For specific Interior Design program questions, contact the Chair of Art and Design, Philip Plowright, at [pplowright@ltu.edu](mailto:pplowright@ltu.edu) or the Interior Design Director, Jenna Reed Walker, at [jwalker1@ltu.edu](mailto:jwalker1@ltu.edu).

For general questions about admissions, our programs, or the college, please contact Alice McHard at [amchard@ltu.edu](mailto:amchard@ltu.edu) or **248-204-2834**.
